

INTERNATIONAL LEVEL 3 DIPLOMA IN PRINCIPLES OF HEALTH AND SOCIAL CARE

INTERNATIONAL STUDENTS

Beacon Education Partnership is one of the UK's premier Health & Social Care training providers. We have been established since 1998 and were founded by a group of nurses and carers with a passion for quality training and skills development. Our teams of tutors, assessors and student support staff are all industry specialists with either a care or nursing background.

Beacon supports a diverse range of UK and international students who are looking to work or study in the UK and who:

- May have never worked in care and are keen to gain their first full qualification
- Are currently working in care and want to formalise their skills with a level 3 diploma
- Have worked in care before and want a qualification to help them return to the care sector

Beacon Education is:

- Accredited by Skills for Care, the UK sector skills council for the care sector
- Recognised by the Care Quality Commission (CQC) - the independent regulator of all health and social care services in England
- Our qualifications are required by the National Health Service (NHS) and recognised by health and care agencies across the UK and internationally

WHY THE CARE SECTOR?

Across the globe we are experiencing a significant growth in our elderly population with people living longer and needing various levels of care and support for longer. In the UK there are currently 120,000 vacancies in the care sector, with the Health & Social Care sector being one of the most stable employment sectors with a "job for life" for those with the right qualifications and passion to support others. This is mirrored in many other countries where the demand for skilled carers is high, especially for those with a globally recognised UK Care qualification.

WHY A UK HEALTH & SOCIAL CARE QUALIFICATION?

UK qualifications are regarded as the global gold standard. Many countries recognise a UK vocational qualification, such as the Health & Social Care Diploma as being equal to or superior to their domestic qualifications. In the UK the Level 3 Diploma in Health & Social Care is seen by CQC, NHS, Skills for Care and employers as the benchmark for skills in the care industry.

This level 3 Diploma offers the qualification international students have been asking for to gain employment in the UK or to go onto further study with a place and student visa at one of the many UK Universities.

LEVEL 3 DIPLOMA IN HEALTH AND SOCIAL CARE

Our international programme has been designed to allow flexibility in delivery to suit the different needs of our global clients. Our programme is a blend of teaching webinars, comprehensive workbooks, online materials, video clips, UK-based tutor telephone, email, WhatsApp, online and skype support all managed through our online Student Portal.

GENERAL INFORMATION

Prerequisites

As this is a formal UK-based qualification, the course is delivered and assessed in English. Consequently, the student must be able to study in English and answer the written assignments in English.

Students must be computer literate and have access to a PC, laptop, tablet or a similar device.

No prior Health & Social Care experience is necessary as this programme develops the knowledge required to take the student from level 1 to level 3.

Duration

The Core Programme is a self-passed learning course with 9 distinct units. We usually expect students to complete a unit a month so we set a guide of 9 months for course completion. However, as all units are available on demand any students can complete the programme in a much shorter timeframe if desired.

Course Content

IQ Level 3 Diploma in Principles of Health and Social Care

Working with Skills for Care, the NHS and UK care agencies, we have reviewed the many units available within the qualification and have agreed the 9 most relevant units to support employment in the care sector.

- ✓ Principles of Health, Safety and Infection Control in Health and Social Care
- ✓ Principles of Person-Centred Care in Health and Social Care
- ✓ Principles of Communication in Health and Social Care
- ✓ Principles of Safeguarding and Duty of Care in Health and Social Care
- ✓ Principles of Equality, Diversity and Rights in Health and Social Care
- ✓ Principles of Teamwork and Multidisciplinary Working in Health and Social Care
- ✓ Principles of Record Keeping within Health and Social Care
- ✓ Principles of Dementia Care
- ✓ Principles of End of Life Care

Invest in your Future.
A UK qualification and a
world of opportunity awaits.
